Data Class Form

This form is part of an experiment on the presence of code smells in Java code.

In this form, you are asked to evaluate the code listed under your Student ID in the spreadsheet, focusing on the presence or absence of the *Data Class* code smell.

* Indica uma pergunta obrigatória

1. Name and Student ID *

   e.g. *Saymon Souza - 25.1.0001*

   _____

2. What is the name of the file you evaluated? *

   Please write the name of the file you are evaluating from the GitHub file, matching exactly what is shown in the red box of the image below. **You should not include the .java extension, only the file name itself.**

   eval-llms-code-smells / HazelcastPubSubStore.java

   _____

3. How would you rate your confidence that there is a **DATA CLASS** smell in the code? *

   Marcar apenas uma oval.

	1	2	3	4	5	
Defi	◯	◯	◯	◯	◯	There is definitely a code smell

4.

Mention why (for instance, which code elements) you gave this rating. *

_____
